American & Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
(*Late Agent of U. S. Patent Office Washington, under the Act of* 1837.)
No. 76 State Street, opposite Kilby St.,
BOSTON.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]
"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

REPUBLICAN STATE CONVENTION.

The citizens of this State, who recognize, as of paramount importance, the issue which the Platform adopted by the Philadelphia Convention, on the 17th of June, 1856 presents in opposition to the Pro-Slavery policy of the past and present Administration, and the necessity of a National Organization on the basis of that issue, as the only practicable mode of peaceable and constitutional resistance to the arrogant, aggressive and intolerant spirit of that policy of which the repeal of the Missouri Compromise, the lawless invasions of Kansas, and the decision of the Supreme Court in the Dred Scott case are illustrations and proofs—are requested to meet in REPUBLICAN CONVENTION, IN NOROMBEGA HALL, BANGOR, THURSDAY, June 25, at ten o'clock, A. M., to nominate a candidate for Governor, and to transact such other business as the interests of the Republican party of the State may require.

The Convention will be composed of delegates from cities, towns and plantations, according to the following basis of representation:

Each city, town and plantation shall be entitled to one delegate. Each city, town and plantation that cast seventy-five votes for the Republican candidate for Governor in September 1856 shall be entitled to an additional delegate, and one delegate to every hundred votes for said candidate in September 1856, above seventy-five.

STATE OF MAINE

EXECUTIVE DEPARTMENT, Augusta, May 30, 1857.

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on TUESDAY the 23d day of June next.

ALDEN JACKSON, Secretary of State.

One of the Bunker organs in this city wishes to be informed "in specific terms, by whom the Dred Scott decision is opposed." The limits of our paper will not allow us to answer that question "in specific terms." The list of those who deny the validity of the doctrines enunciated in that decision would constitute a roll larger than Bunker Hill. The *people* are opposed to those doctrines, and are determined that the Supreme Court, which was created in their name, and by their authority, shall yet be so constituted as to reflect the true sentiments of the people, and so construe the Constitution as *they* designed it to be construed—as an instrument to secure the blessings of *liberty*—not one to aid in the perpetuation of slavery.

The paper referred to makes a slight mistake upon another point—or at least conveys a false impression in regard to it. It says the Dred Scott decision "was sustained by a very large majority of the Associate Justices of the Supreme Court." This is not true, as to the obnoxious doctrines and opinions of that decision. The judgment of the Court, (concurred in by a majority of Judges,) was simply that the case be sent back to the Court below to be dismissed for want of jurisdiction—but the arguments and the opinions were those of Judge Taney, endorsed, in some of the most remarkable points, by nobody but Justices Wayne and Daniel.

A DEMOCRATIC STATE ABOUT AS GOOD AS A SLAVE STATE.—This seems to have been the opinion of many of the leading men in the slaveholding interest—and hence a failure to secure Kansas permanently as a Slave State will come upon the South with many grains less of disappointment, than if the politicians of that section did not hope by shrewd management, and the help of the National Administration, to get the new State under democratic control. The Providence Journal places this in a clear light, when it says that such is the intimacy, almost the identity, between slavery and Democracy, that the administration may well feel that if Kansas can be brought in with two Democratic Senators, it will answer all the purposes of the legal establishment of slavery. A leading object in bringing the new Territory into the Union as a slave State, is to preserve the preponderance of the Slave power in the Senate. Now Stringfellow, and Sheriff Jones, sent to the United States Senate from the free State of Kansas, would be, in all respects, as firm friends of slavery as though they came from a slave State. They might get a little shaky as the time of re-election came around, but party discipline is strong and the patronage of the general government is overpowering.

"Among the leaders on both sides in Kansas, are men who have gone out with views of personal ambition, and almost every man falls into the habit of speculation as soon as he arrives there. The power of the federal government, enormous everywhere, is felt with peculiar force in the new Territories. The amount of money expended by the government is very great; the favor of the government is of uncounted value to those who wish to speculate in lands, and it requires more virtue and firmness than men ordinarily possess to resist the appeals that are backed by executive power.

GOVERNORSHIP OF UTAH.—The New York Journal of Commerce understands from good authority that Hon. Philip Frank Thompson will accept the Governorship of Utah Territory. Mr. Thompson is already distinguished in the public service, as a member of Congress, as Governor of Maryland, and more recently as Collector of the port of Baltimore.

"JUST SO."—The Boston Post says the nation put some ugly *plugs* into the *Plug Uglies* at the Washington riot.

A SOUTHERN BID FOR THE BIG STEAMER.—The New York Herald gives the proceedings of a recent assemblage of railroad men at Bristol, Tennessee, representing a dozen or more railroad companies, whose object is the opening of a direct commercial intercourse by steamships between Norfolk and the principal Atlantic ports of Europe; and as a beginning they have appointed a special ambassador to proceed to England to negotiate with the company of the Great Eastern, and to secure, if possible, her first trip across the Atlantic to the port of Norfolk. This delegate is the Hon. William B. Preston, of Virginia, formerly Secretary of the Navy.

We think the southern gentlemen will not obtain their object. The first trip of the Great Eastern is undoubtedly determined upon for the city of Portland.

FROM UTAH.—Brigham Young and Presidents Kimball, Wells and others, left Great Salt Lake City on the 24th of April for an excursion to the north, expecting to be absent four or five weeks. The general conference of the Latter Day Saints assembled on the 6th of April to consider the affairs of the church. A large number of missionaries had been despatched on proselyting missions to all parts of the world. On the 23d of April, 74 men on this errand left the city; with 25 hand-carts, filled for the overland trip, upon reaching the Missouri river they were to separate. The militia system of the territory has been reorganized, and the entire military force put in a state of efficiency.

THE CHRISTIAN EXAMINER.—The change announced in the editorship of this sterling denominational magazine takes place in the July number—and we are gratified to learn that the graceful and able pen of Rev. Jos. H. Allen, who has recently dissolved his connection with the Union St. church, of this city, has been enlisted for its pages. Rev. Mr. Hedge, as before stated, is to be the leading editor.

RAIN.—During five months this year, twenty-seven and a third inches of rain have fallen. This amount is nearly ten inches more than the average fall for the same period. Nearly eleven inches of water fell in April last. The average amount during that month is less than four inches.

THE SEAT OF GOVERNMENT OF CANADA.—By the last steamer we learn that the question of the permanent seat of government of the Canadas, which has given the home government no little trouble, has been decided, and that Ottawa is the place selected. The London Herald publishes this intelligence in the following brief but confidant notice:

'We have received information from a source upon which we can place reliance, that the imperial authorities of the Colonial Department have decided in favor of Ottawa as the future seat of government of these Provinces. Toronto will, however, remain as the metropolis for three years. The selection of Ottawa has been arrived at from the position of the locality.'

GERMANS IN NEW YORK.—There are no less than 100,000 German inhabitants in the city of New York. The following statistics are given regarding them.

'They have upwards of twenty places of public worship, upwards of fifty schools, ten book-stores, and five printing establishments, a German theatre, German opera, and concerts innumerable. Many of them are practical furriers, surgical instrument makers, manufacturers of pianos and fancy articles, grocers, bakers, confectioners, and hotel-keepers.—There are several German daily, weekly, and monthly newspapers.'

SUNDAY ELECTION IN BUENOS AYRES.—Rev. Mr. Carrow, Methodist missionary at Buenos Ayres, thus described the process for the election of government officers in that city:

'The general election came off very quietly last Sunday, with a very large majority for the government candidates. The voting was done at the doors of the churches in the respective districts into which the city is divided. To see a general election on such a day and at such places, was to me a matter of instruction; and so, just before the commencement of our own service, I stepped across the street and taking a position in the vestibule of the church of Our Lady of Mercy, surveyed the scene for a few moments. There was not a word or improper action. The citizens walked up to the window, deposited their votes and turned away. This was pleasant to behold, rather than the bloodshed and confusion else, which many expected, who have not sense enough to distinguish between Buenos Ayres of to-day and the Buenos Ayres of thirty years ago.—There is no appeal to men generally like that which goes straight to the pocket. I am therefore led to hope for continued peace because the people here see what they have gained by the three years peace enjoyed under Gov. Obligado's administration. Many reasons indeed, might be advanced in support of the opinion which I have heretofore expressed to you, that in this particular portion of South America there can be no recurrence of the sudden and sanguinary revolutions of former years.'

RATHER TIGHT TIMES OUT WEST.—The Detroit Free Press has the following:

They talk about tight times west of us, but we doubt whether they realize them as they are realized here, if what we have heard be true. Being in a pinch, one of our denizens sought to get a piece of paper 'done' by a certain 'bank' in town. The 'bank' 'did' it, as a favor, at six per cent a month. We are not advised how many months the paper has to run, nor whether the bank invariably takes its discounts in advance.

Rev. Dr. Kirk, in a letter from Manchester, England, says: "I had in the oldest factory of the town a striking exhibition of the value of human art and labor. A pound of cotton was pointed out as worth a pound of gold. Its cost as crude cotton may have been eight cents. And as a curiosity of art, I was shown a pound of cotton spun into a thread that would go round our globe at the equator, and tie in a good large knot of many hundred miles in length."

Jones, (who thinks that Smith has been a little too free.)—'Mr., I wish to speak to you privately. Permit me to take you apart for a few moments.' Smith, (who isn't in the least frightened,)—Certainly, sir, if you will promise to put me together again.'

The steward of the barque Coral Isle, of Scarborough, while on her passage from St. Domingo to Liverpool, killed a pea-hen which he had purchased in the West Indies; and on taking out the contents of its crop the steward found two valuable diamonds, which, since the vessel's arrival at Liverpool, he has disposed of for a considerable sum of money.

LOCAL AND MAINE NEWS.

FIRE.—About two o'clock yesterday morning, the old "Elm House," situated on the Levant road, about two miles from the city, was discovered to be on fire, and was burned to the ground. The house has been unoccupied for some time. It has been a place of bad repute heretofore, and was doubtless set on fire intentionally. The house we understand was owned by Adonijah Webber, and we believe was not insured.

At the time the Elm House was burning, a fire was seen in Brewer, just above the lower village—which, we regret to say, proves to have been the burning of the dwelling-house of Capt. David Wiswell, with all its contents except about $100 worth of furniture. Capt. W. and his family were absent on a visit at Eddington, and the house was shut up. We believe no person who had a right there had been in the house during the day previous—so that there is ground for suspicion that it may have been first robbed of some of the property and then set on fire. The house probably cost $1000 or $1200. We cannot learn that there was any insurance.

ST. JOHN'S EPISCOPAL CHURCH. Rev. Mr. Smith of Trinity Church, Boston, did not preach on Tuesday evening, as expected, but it is announced that he will preach this evening.

The ordination of the Rector elect of St. John's Church and of Rev. Roger S. Howard, as Presbyters, will take place this (Thursday) forenoon.

The flags of a large number of vessels in port, and those of the several fire companies, were placed at half-mast, yesterday, in token of respect for the memory of Leonard March, Esq., whose funeral took place at two o'clock.

An adjourned session of the Supreme Court for April commenced on Tuesday—Judge Appleton presiding.

The ship James Littlefield is not bound to Valparaiso, as we were informed yesterday—but for some American port this side the Horn—and a market.

The State of Maine says that Anson Burlingame, M. C., his family, and John P. Hale, U. S. Senator of New Hampshire, and family, have engaged quarters at Sebdinand, Moosehead, for the summer months.

Drowned on Friday night, in the Kennebec River, nearly opposite South Gardiner, Mr. Isaac Noble, aged 35. He accidentally fell out of a boat while fishing, and sank immediately. His body was soon after recovered.

SUDDEN DEATH OF HON. THEODORE INGALLS. Hon. Theodore Ingalls died very suddenly in this city yesterday afternoon. About 5 o'clock he was at the Post Office conversing with the Postmaster in his usual cheerful manner, and left that place to go to his own office. He was observed, as he reached the head of the stairs leading to his office to falter and drop down, and when immediate assistance was obtained, he had consciousness enough to point to his pocket, where the keys of his office were deposited, and then to the door. This was understood by those assisting him, and they opened the door to his office, carried him in, laid him upon a couch and summoned the best medical attendance in the city. But it was all in vain. Although he breathed 25 or 30 minutes, he had no consciousness and was unable to utter a word; and notwithstanding all the remedies which could be and were applied, he died in about 30 minutes from the time he dropped down at the head of the stairs.—*Port. Argus, 9th.*

On the morning of the 7th inst., a grist mill, saw mill and machinery, belonging to Col. Lee Strickland and Captain Seth W. Turner, in Livermore, were destroyed by fire; loss about three thousand dollars, no insurance. Supposed to be the work of an incendiary.

The Machias Union says:

A rumor was current in town yesterday, that Mr. T. Kennerston, recently of Whitneyville, but for a short time back had lived at St. Anthony, M. T., had died from a wound received in an affray with another person, by a dirk knife. The assaulting party had fled. The rumor needs confirmation.

The house, new barn, and outbuildings, most of the furniture in the house, and three hogs belonging to William Cutler, of Limington, were consumed by fire on Friday night last.—Insured for $350. Mr. C.'s loss above insurance is estimated at $1000.

They have a chicken in Whitneyville, recently hatched, that has *four* legs and feet all in good condition.

The Argus says that an Irishman named James O'Donnell, from Bath, fell from the P. S. & P. Railroad wharf Monday afternoon, striking on his head and shoulders as he touched the flats. Report was carried to the police office that the man was killed, and some of the officers went up to remove the body. It was taken to the Alms House, but no bruises could be discovered, neither could any broken bones be discovered. After some little investigation, it was discovered that the man was not dead, but intoxicated. He died in a fit early next morning.

A correspondent of the Machias Union urges mill-owners to have sufficient fishways erected in their dams, so that the alewive fishery may be revived and made profitable. The fishing season has commenced.

THE STEAMER GOVERNOR.—This steamer, long known upon the waters of Maine, arrived at Bristol, R. I., on Friday last. It is proposed to run her between Bristol and New York, in connection with the Seekonk Branch and the Boston and Providence Railroads.

LEMUEL GILBERT'S GRAND PIANO FORTES.—There are now on exhibition at Messrs. Fenno & Hale's, Main St., several of the splendid instruments from the manufactory of Mr. Lemuel Gilbert, Boston. This gentleman has a reputation in Piano Forte construction which is not surpassed by any manufacturer—his instruments possessing a conceded superiority in sweetness of tone, quickness and elasticity of action, and blending all the qualities which make up a perfect dispenser of sweet and harmonious sounds. The finish of his instruments is also worthy of notice, and these, which we have had the pleasure of seeing and hearing, at Messrs. Fenno & Hale's, it appears to us, must at once recommend themselves to those who seek for instruments to worthily occupy a permanent place in their parlors. These pianos will be on exhibition for a few days, and we advise our readers to inspect them. [Journal.

ITEMS.

The strike of house carpenters in Philadelphia for an advance of wages to $1,75 per day is all but successful. About eight hundred of the best workmen are already receiving the advance. The remainder are, for the most part, such as the employers deem unable to earn an increase of pay.

In the Boston Municipal Court recently, Jeremiah Grady, committed to answer the charge of causing the death of his wife by kicking her out of bed was discharged, the Grand Jury finding no bill against him.

RELICS. The Boston Courier says that a bayonet, apparently as old as the Revolution, was found at Bunker Hill the other day, and delivered into the hands of the monument keeper.

The Washington Star of Tuesday, understands that it is the intention of Chas. B. Calvert, late proprietor of the National Hotel, to sue the corporation of Washington City for $75,000 damages, growing out of the closing of that house.

There is a curious fact said to exist a few miles south of Greencastle, Putnam county, Indiana, where there is a family of six, all having the same birth-day. The father and mother are each thirty-five years old, the children, respectively, fourteen, eleven, eight and five years. Their birth-days come on the 17th of May.

The customs' officers of Boston, on Friday afternoon seized some $1500 worth of smuggled India silks, Canton crape shawls, &c., which were on the ship Mercury, from Calcutta.

The mint has paid out 6,000,000 of the new coinage of cents, and the orders are yet pouring in from all quarters, even from the south and south-west, where the old cent never obtained circulation. The whole force of the establishment is being employed upon this new coin, and 275,640 are manufactured daily.

PAYING FOR A MOB.—Two men at New Orleans have recovered $800 damages from that city, for allowing their fruit stands to be destroyed by a mob.

At Quebec, on Friday morning, Mr. Robertson, messenger of the British bank of that city, had his pocket picked of $7200 belonging to the bank.

Goethe says of Shakspeare, "His characters are like watches with dial-plates of transparent crystal: they show you the hour like others, and the inward mechanism also is visible."

From the New York Herald.

NEW PRESIDENTIAL GAME IN KANSAS—NEW DANGERS TO THE ADMINISTRATION.—The pro-slavery party in Kansas have abandoned the ground of Atchison & Co.—they have given up the battle for Kansas as a slave State, and the leaders in that movement have retired from the field. They overdid the thing, and the reaction has politically crushed out all the Presidential intriguers in the plot, from Pierce and Douglas down to Stringfellow and Lecompte. But all this does not settle the controversy—it has only resulted in giving it a new shape. The suggestion of Mr. Secretary Stanton, (the *avant courier* of Gov. Walker,) that as a southern man, if he could not make Kansas a slave State he would be satisfied to make it a democratic free State, furnishes us the key to the new programme of the local pro-slavery party. It is to make Kansas a democratic free State. The inaugural of Gov. Walker is earnestly, if not undisguisedly, addressed to this consummation, and the opposite side are taking their measures accordingly.

Gen. Wilson has returned from Kansas to Massachusetts to report progress, and to raise funds for the immediate organization of a Republican free State party in Kansas, in opposition to the new democratic free State party. The movement on both sides is a Presidential movement. As a Republican leader General Wilson is not the man to allow Gov. Walker to steal a march on him; and as a democratic aspirant, Walker, fully appreciating the pro-slavery excesses which broke down poor Pierce and Douglas, appreciates, also, the saving policy of a middle ground. He aims to conciliate the north without offending the south; and in this his sagacity cannot be questioned. But in reference to this forthcoming pro-slavery State Convention and its proceedings, this new organization of parties in Kansas is suggestive of new party complications in the Convention and in Congress. The result may possibly be, on the part of the southern democracy who control the United States Senate, a positive refusal to acquiesce in the surrender of Gov. Walker and the democracy of Kansas to the pressure of the free State cause among the people of the Territory.

But Governor Walker, in anticipation of some such difficulty, holds in reserve an equivalent for the loss of Kansas in "the fertile Indian country" lying on her southern border—a country where cotton and tobacco flourish, and where negro slavery is already established by the Cherokees. And this proposed equivalent for the loss of Kansas may result in keeping open the whole controversy till the next Presidential election; for, with the best that can be done, it will take several years to put this "fertile Indian country" into a condition competent for the functions of a sovereign State.

The game, then, of Senator Wilson and the Republican party is to make Kansas a free State of the republican stripe, and the centre of the contest for the succession, admitted or not admitted as a State. The plan of Governor Walker is to split the difference with the north, by making Kansas a democratic free State of the California pattern, and by quieting the south with a new slave State from that aforesaid "fertile Indian country." It will devolve, then, upon the administration, first, to be careful concerning the premature admission of Kansas. Secondly, it will be important to watch the movements of southern politicians, in and out of Congress, in reference to the admission of Kansas as a free State; for upon that issue there may be a southern rebellion.

BETS ON THE COMET.—The Urbane (Ill)Constitution offers the following bets: 1st. We will wager $20,000, more or less, that if the comet offers to strike, we will dodge before it does it; in other words that it can't be brought to the scratch. 2d. A like sum that, if it does strike, it will be knocked higher nor a kite. 3d. Twenty-five times the above amounts that, in case the comet strikes, it wont budge the earth six inches, by actual measurement. 4th. A like amount that, after the comet strikes, its tail drops. 5th. An optional sum, that the earth can knock the comet farther than the comet can knock the earth, nine times out of eleven. 6th. That after the comet gets through striking the earth, it will never want to strike anybody else. These propositions are intended to cover the case of any gentleman in the globe, or on the comet, or elsewhere. All wagers to be decided by the Judges of the Supreme Court. Money to be deposited in the Banks of Newfoundland.—Time of striking, and other arrangements, to be fixed by the parties. Applicants for bets have a right to select any [illegible] they choose.

Home Manufactures.

The encouragement of home manufactures, though demanded on the soundest principles of justice and good sense, is regarded with many people, more in theory than practice. We desire to call attention to the fact that those in want of a good article of VARNISH can save themselves much unnecessary expense simply by buying it at home, instead of purchasing, as the practice has hitherto been, at New York. By this means purchasers can avoid the accumulated cost of transporting the raw material from Salem to New York, of manufacture in that city, and of bringing it back again to Boston. This being true, it is surely unwise not to avail themselves of this opportunity. We call the attention of buyers to the large stock of Messrs. STIMSON, VALENTINE & CO., 55 Broad Street, Boston.—*Merchants' and Manufacturers' magazine.*

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness Scurf Dandruff, Itching, and all diseases of the skin This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair which passes through the Hair and gives it a natural color without the use of Hair Dye

Hundreds of preparations have been introduced pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials and all to no use Hair dyes have been introduced that do not give the Hair a natural color besides being troublesome to use This Balm is not a Dye Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy and after seven years trial has perfected this Balm It is soothing and emollient, allays all irritation of the scalp thereby stopping that troublesome itching It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black Brown or Auburn It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair and growth will soon appear Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed If you examine gray hair that has been colored for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color Each hair has a root in the skin, and is of itself a hollow, gray tube thro' which there is a constant circulation of the pigment from the root When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray To invent a Balm that would produce this pigment has become the study of the proprietor The discovery of the Alpine Hair Balm will do it It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1817) Licentiate of the Royal Society of Apothecaries (1815) and 28 years Medical Reserve &c)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms as Nocturnal and Diurnal Emissions Nervous Irritability Premature Decay, Loss of Virility Impotency and all diseases arising from early indiscretion

This excellent Remedy discovered by the world renowned DR CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical surgical or otherwise, to arrest and to cure this awful disease A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a mere guarantee that its employment by one person would, through recommendation, result in an eventual sale to many

DR. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, worth 10 guineas every one to trust himself or herself successfully. Price $2, on the receipt of which it will be forwarded by mail, free of postage, to any part of the country. Address, Messrs.
